

CMX008 80 kV 500 μ A X-Ray Source

■ General Description:

40 watts of power and 24 volts DC input make this source very popular for portable inspection services

Characteristics:

Target Voltage	20 –80 kV
Maximum Power	40 W
Maximum Target Current	500 μ A
Focal Spot Size	.25 mm
Beam Angle	24 degree
Operation	Continuous
Target Material	Tungsten
Window Material	Titanium
Window Thickness	.005"
Input Voltage	24 VDC
Interlock	Close Contact
Weight	9.0 lbs
Cooling	Air

80 kV X-Ray Source
